**Creating waves since 2013**

@sierra

### **Passion**

I'm often asked 'How did you come up with the idea of creating this board?'. The short answer is that it wasn't really my idea; in fact people have been trying to achieve this with varying results since the 1950s. But in spite of my predecessors' troubles my idea - or rather my strong belief - has always been that it must be possible to not only make cool and powerful jetboards but to also create something larger - a community of jetboarders! I even imagine a way of Life, as so many board sports have grown into and inspired before us.

### **Pedigree**

At Radinn we've created jetboards since 2013. And ever since my first prototype I've seen the unbridled fascination and joy the Radinn board brings out in people wherever it has been showcased.

We have now completely reinvented our own earlier innovation and launched the World's first commercially available electric jetboard - a jetboard that is not only powerful but safe, intelligent and extremely fun. The Radinn G2X.

### **Legacy**

Our mission is to make jetboarding available to anyone who hungers for action watersports - and to keep striving for faster, more radical, and safer ways to catch that thrilling 'Radinn wave'.

Alexander Lind  
Founder of Radinn

# Best in class performance

Top speed up to

**60** kph

Average run time

**45** min

Safest battery

Virtually silent

Our unique electric drivetrain together with our patented battery technique allows for 'best in class' performance for jetboarders of all kinds - from beginners to the most seasoned rider.

The sleek lines and look of the G2X has already been recognized by the awarding of gold and silver in two categories at the IDA Design Awards.

# Power.

Who would have thought it possible to shred through the waters with this kind of thrust - without the need for waves or loud engines you can reach speeds that are sure to make the most seasoned action sports enthusiast fall in love.

@forestbakker

# Agility.

Whether you prefer short rapid moves or long sweeping curves, shifting your bodyweight for control gives you an amazing sensation of fluid motion - perfect freedom!

The handheld bluetooth control lets you adjust power in a seamless moving transition - further enabling you to focus on smooth gliding across the water, bodily movement and indulging in the experience.

# Range.

With cutting edge battery technology the Radinn G2X safely and reliably allows you to go exploring - way beyond what has been possible before. The powerful battery and long range will take you to otherwise hard-to-reach places for entirely new and trail-blazing perspectives on nature - unique experiences at every turn!

## Truly fun facts

- Polymer hull **Impact resistant** - military grade
- Motor performance **Up to 12kW**
- Control throttle **Stepless & wireless**, bluetooth 5.0
- Battery pack **Fast exchangeable**, Standard 2.8 kWh or XL 3.7 kWh
- Charging time **ULTRAFast charger** ~2 hours or Standard charger 6-8 hours
- Handling **Twin fins** allows for better response and quicker turns
- Leash **Magnetic kill switch**
- Dimensions **1945 x 810 x 170 mm**
- Weight **Jetpack & body: 25kg Power Pack: 20kg**
- The Radinn app **Service indicator, board & throttle settings**, GPS tracking, etc.
- Extras **the WHIPthrottle™** with GoPro fittings

# Connected control

**Keep your board happy and working at maximum capacity for a long long time.** Data is continuously transferred from your board to the app and you'll be notified if something is out of the ordinary. At the same time the data will automatically be analysed so that we can keep you informed on potential service needs.

You can also check battery levels, run diagnostics, read the Radinn manual and much more.

**Set your own limits - or eliminate them all together.** Power up or down your Radinn-board via the app depending on how or where you want to ride. Or who's gonna ride it.

Download the Radinn app from your app store

# Award winning design

Radinn G2X was awarded Gold  
in the category  
"Transportation-Nautical/Boats"

Radinn G2X was awarded Silver  
in the category  
"Outdoor And Exercise Equipment  
- Sports/Toys/Games"
